

## FENCE TECH QUIZ

THIS SHORT REVIEW WILL COVER MAJOR POINTS FROM THE FENCE TECH TRAINING. USE A PIECE OF NOTE PAPER TO KEEP TRACK OF YOUR ANSWERS, AND ONCE YOU'VE COMPLETED ALL 10 QUESTIONS, FLIP THIS CARD OVER TO COMPARE YOUR RESPONSES TO THE CORRECT ANSWERS.

1. True/False: The larger the gauge number, the thicker the wire.
2. How far apart should posts be spaced during installation?
3. Identify this Fence Style Number:  
1047-6-12½
  - Gauge
  - Pull-out spacing
  - Height
  - # of horizontal line wires
4. Identify these Fence Knots:
  - A. 
  - B. 
  - C. 
5. Use the Red Brand Quick Reference Guide to identify the fence type(s) most suitable for the animals listed below.  
Cattle • Poultry • Horse
6. Since the cost of fence may only be about 1/3 of the total cost of a fencing project, what are some additional tools and materials you can potentially provide to customers for their fencing project?
7. How long will the fence last?
8. If a customer requests information on proper fence installation, where can you refer them?
9. Why should customers trust Red Brand?
10. True/False: Red Brand is the only ag fence that is 100% American made.

# ANSWERS

1. False
2. 8' - 12' for most fence products.  
When using T-posts, every 5th post should be wood.
3. Gauge = 12 ½  
Pull-out spacing = 6  
Height = 47  
# of horizontal line wires = 10
4. A. Monarch® Knot  
B. Square Deal® Knot  
C. Cross Lock® Knot
5. Cattle: Field Fence,  
Barbed Wire, Panels  
  
Poultry: Apron Fence, Yard/Garden/  
Kennel, Poultry Netting  
  
Horse: V-Mesh, Non-Climb, Panels
6. gloves wire cutters  
post hole digger strainer crank tool  
post driver crimp tool/sleeves  
tamp bar/stick come-a-long  
wooden posts stretcher bar  
t-posts wrapping tool  
wire clips wire gripper  
brace pins chain grab  
spinning jenny staples
7. How long a fence lasts depends  
on the conditions of its use.  
All fence will eventually rust and fail.  
However, Red Brand agricultural  
fencing products are galvanized  
with zinc alloy coating to make them  
long-lasting and durable.
8. Red Brand has produced  
a comprehensive collection of free  
installation videos that are  
available for customer viewing  
at [redbrand.com/installationvideos](http://redbrand.com/installationvideos).
9. Consistency – The founders of  
Red Brand invented the first machine  
to build woven wire fence 125 years  
ago and have been refining the  
process ever since.  
  
Quality – Red Brand continually meets  
and exceeds the quality standards set  
by the fence industry.  
  
100% made in the USA – Red Brand  
controls the manufacturing process  
from start to finish to assure quality  
in every line wire. If wires in a fence  
are made with inconsistent steel,  
it won't pull correctly and may rust  
more quickly.
10. True. Keystone Steel & Wire,  
manufacturer of Red Brand fence,  
has the capability to melt, refine,  
cast, roll, and finish steel to exacting  
specifications. The integrated  
steel mill allows continuous control  
in producing premium rod and  
wire – the same steel that ultimately  
becomes the quality you see and rely  
upon in all Red Brand fence. No other  
wire fence company can claim they  
make 100% of their product in the U.S.
